

The CAF Memorial Water-Wise Garden concept began in 1993. Planting began the following year and has continued to change every year. The garden is completely maintained by the Permian Basin Master Gardeners. Tours are also provided to the public by the Master Gardeners.

## Seven Principles of Water-Wise Landscaping

Planning & Design  
Soil Analysis

Appropriate Plant Selection  
Practical Turf Areas  
Efficient Irrigation  
Use of Mulches  
Appropriate Maintenance

The garden is open to the public along with the CAF Airpower Museum from 9:00 AM to 5:00 PM Tuesday thru Saturday. It is home to over 80 species of plant life and numerous birds and butterflies.
